Organized by

Department of Computer Science and Engineering (Cyber Security)

In association with Indian Society For Technical Education (ISTE Student Chapter)

Haldia Institute Of Technology (NAAC Accredited Grade 'A' Institute),

Haldia, 721657, WB, India

About the Institute

Haldia Institute of Technology (HIT) is an NAAC Accredited Grade 'A' premier Autonomous technical institute established in 1996, located in Haldia, West Bengal. It is the 1st private college in WB affiliated with the Maulana Abul Kalam Azad University of Technology (MAKAUT), West Bengal. HIT offers undergraduate and postgraduate programs in various engineering and technology disciplines, including Computer Science, Electronics, Mechanical, and Civil Engineering. The institute is approved by the All India Council for Technical Education (AICTE) and accredited by the National Board of Accreditation (NBA). Known for its state-of-the-art infrastructure, research initiatives, and industry collaborations, HIT provides quality education to students aspiring to excel in the field of technology.

About the Department

The Cyber Security Department at Haldia Institute of Technology, affiliated with Maulana Abul Kalam Azad University of Technology (MAKAUT) and approved by AICTE, offers comprehensive programs to address the growing demand for cybersecurity professionals. The department focuses on providing students with the essential skills and knowledge to protect critical information systems, ensuring data privacy and security in a digital world increasingly prone to cyber threats.

About the Seminar

The "National Symposium on Emerging Trends in AI and Cyber Security" aims to explore the rapid advancements in Artificial Intelligence (AI) and Cyber Security, two of the most critical fields in today's technology-driven world. As AI continues to revolutionize industries and enhance decision-making processes, it also presents new challenges in data privacy and system security. This symposium will bring together experts, researchers, and professionals to discuss innovative solutions, share knowledge, and address emerging threats in cyber security. The event highlights the importance of interdisciplinary collaboration to safeguard digital infrastructures while advancing AI technologies responsibly and ethically.
